Application for the position as Software Engineer Backend

Dear Mr. Tesla,

I am writing to express my interest in the Software Engineer Backend position at Elli, a brand of the Volkswagen Group. With my education and professional background in Python Backend Programming and Graphic design, I believe I would be a great fit for this role.

Throughout my career, I have acquired an extensive range of skills, including Python, PHP, and mySQL. I am confident that these skills, combined with my knowledge in software engineering and development, will enable me to make valuable contributions to your team.

Apart from my professional experience, I have also gained expertise in English at a B1 - lower intermediate level and German at a B2 - lower intermediate level. Additionally, I have a passion for music, games, reading, and travel, which I believe can be a significant asset to your team.

I am excited about the opportunity to work at Elli and contribute to the development of cutting-edge software solutions. Thank you for considering my application. I look forward to the opportunity to discuss my candidacy further.

Sincerely,

Adrian Radu
