Application for the position as Senior) Python Developer

Dear hiring manager,

I am writing to apply for the (Senior) Python Developer position at PwC. With my experience in using computer and various software as a Payroll Manager, as well as my Master's degree in Finance and Payroll, I am confident in my ability to meet the requirements of this job.

I am a reliable and detail-oriented professional with critical thinking skills. I am determined to learn and grow in my career, and I believe I would be a great addition to your team. As a native Italian speaker with English and Romanian language proficiency, I can also contribute to creating a diverse and inclusive workplace.

Aside from my professional skills, I enjoy playing with the computer and coding as a hobby. It would be a great opportunity for me to work in an international network like PwC, where I can share my ideas and work collaboratively to drive digital transformation in Germany.

Thank you for considering my application. I am looking forward to hearing from you soon.

Best regards,

Jude Smiley
